

Free or Low-Cost Early Learning Programs for Income-Eligible Families

Early Education & Child Development Center

Our program offers children the opportunity to grow physically, mentally, socially, and emotionally in a safe and stimulating environment.

Our centers operate as a Laboratory school supporting pre-service teacher experiences through observation, practical application, and directed guidance.

Priority enrollment is given to enrolled student families, children with current IEPs, open cases with CWS, and /or at-risk families.

Applications
accepted all year!

City College

Serves children: 4 months - 5 years
